Coleção de estilo minimalista e delicado, Ecoliving é a escolha ideal para projetos que pretendem criar um espaço em contacto com o meio envolvente.

Com um acabamento realista e natural, está disponível em cinco cores intemporais e com uma reduzida variação de tonalidades, apresentando uma grande versatilidade através dos seus diversos formatos e acabamentos.

Uma coleção verdadeiramente versátil que pode tornar qualquer projeto uma realidade.

Collection with a minimalist and delicate style, Ecoliving is the ideal choice for projects that intend to create a space in contact with the surroundings.

With a realistic and natural finish, this collection is available in five beautiful and timeless colours and with reduced shading variations, offering a great application versatility through its different formats and finishes.

A truly versatile collection that can make any project a reality.

### CERÂMICA EXTERIOR ESPESSURADA // OUTDOOR EXTRA THICK TILES

Os pavimentos cerâmicos de 20mm oferecem diversas vantagens técnicas e facilidade de instalação, tornando-as a escolha ideal para pavimentar espaços exteriores. Essas características fazem delas uma opção versátil e eficiente para uma ampla gama de aplicações, tais como terraços, piscinas, caminhos pedonais, jardins, garagens, entre outros.

As peças podem ser aplicadas com ou sem colas, tornando o processo mais simples, rápido, limpo e econômico. Adicionalmente, a instalação a seco em relva, gralilha ou pavimentos sobrelevados permite uma aplicação mais flexível e ajustável, adaptando-se melhor a diferentes superfícies e condições do terreno. Estas placas cerâmicas permitem ainda combinar espaços interiores e exteriores, proporcionando um design integrado e funcional.

The 20mm ceramic tiles offer several technical advantages and ease of installation, making them the ideal choice for paving outdoor spaces. These characteristics make them a versatile and efficient option for a wide range of applications, such as terraces, swimming pool areas, pedestrian paths, gardens, garages, among others.

These tiles can be applied with or without glue, making the process simpler, faster, cleaner and cheaper. Additionally, the dry installation on grass, gravel or raised floors allows a more flexible and adjustable application, with a better adaptation to different surfaces and ground conditions. These ceramic tiles also allow to combine interior and exterior spaces, providing an integrated and functional design.
